

NEUROSCIENCES WEEK

8–12 Dec 2025 Sart-Tilman, Liège

8

DEC
2025

Neuroanatomy and brain development

9:00 – 17:00

Brain dissection

Practical session on sample size and power calculation

9

DEC
2025

Neurological disorders

9:00 – 17:00

Clinician speakers and clinical case presentations

Session on the molecular basis of neurological diseases

10

DEC
2025

Models and methods in Neuroscience

9:00 – 17:00

Preclinical models, stem cells and organoids, cognitive and clinical methods

11

DEC
2025

Imaging across scales

9:00 – 17:00

Cells, transmitters, and whole brain imaging

Practical session on machine learning

12

DEC
2025

Neuromodulation

9:00 – 16:00

Non-invasive brain stimulation and neuroendocrinology

Practical session on TMS-EEG
